In its meeting on June 23, 2010, the EEX Exchange Council decided to switch the underlying for European Carbon Options to futures contracts with mid-December (MidDec) expiration.

The option O2PE is currently listed based on the early-December (Early-Dec) European Carbon Future underlying. In preparation for the introduction of new options, the listed product O2PE will no longer be tradable as of **July 25, 2010**.

We will supply further comprehensible information on the introduction of the new European Carbon Options in due course.

By means of the Eurex / EEX cooperation, the contracts will also be available for Eurex Members.
