3. Elimination of Giovannini Barrier 7

1. Year-end 2006 Trading Hours

This year's last exchange trading day will be **Friday, December 29, 2006**. This is also the last day of the year on which the Eurex[®] system allows exercises.

On the year's last trading day some stock exchanges at which Eurex product underlyings are traded, reduce trading hours. At Eurex, trading of derivatives on products traded at these exchanges will also terminate at an earlier time.

Besides, Eurex will start the year-end batch as soon as 19:00 CET. For this reason, trading hours and post-trading phases for some products will also change on that day.

For an overview of trading hours at Eurex on December 29, 2006 please see attachment 1.

Futures for which trading phases usually end with a closing auction, on December 29, 2006 will also end trading with a closing auction.

2. Additional Trading Days/Holidays in 2007 and Elimination of Giovannini Barrier 7

An overview of exchange holidays at Eurex and of days with trading or clearing restrictions in 2007 is enclosed to this circular (attachment 2).

To harmonize clearing times in the eurozone (see attachment 3), December 24 and 31 will be added to the regular clearing and settlement calendar of Eurex Clearing AG as of 2007 (provided these days do not fall on a weekend). As a special regulation for Whit Monday (May 28, 2007) the exchange will be closed for trading on this particular day, whereas clearing systems will remain open.

Eurex Products – Trading Phases on December 29, 2006

		Trading	OTC Trading until	Post-Trading Full	Exercise until	Batch start

Elimination of Giovannini Barrier 7

In November 2001 the Giovannini Group, which advises the EU Commission on planning and developing an integrated and harmonized European financial market, published 15 barriers which make cross-border clearing and settlement in Europe difficult.

In this context Giovannini Barrier 7 cites the different operating hours of national settlement system in the euro-zone. By harmonizing settlement times, above all on public holidays, settlement efficiency in cross-border transactions shall be increased reducing at the same time corresponding settlement fees.

In order to comply with above harmonization efforts on the part of Deutsche Börse AG, December 24 and 31 will be added to the regular clearing and settlement calendar of Eurex Clearing AG as of 2007 (provided these days do not fall on a weekend).

To avoid specific adjustment expenses for these days by replacing established "straight-through processes" on clients' side, Deutsche Börse Group plans to leave operating hours and processes of settlement systems unchanged.

For this reason, as of 2007 Deutsche Börse Group will organize December 24 and 31 as follows:

Trading:

Eurex, Eurex Bonds	no trading
Frankfurt Stock Exchange (Xetra, Floor)	no trading
Eurex Repo	regular business days
Braintrade (XONTRO)	XONTRO will remain open, but no price determination will take place. Thus, functions which can be performed are order entry, cancellations, manual entry of transactions including bank direct (OTC) transactions, broker's open transactions (reduced trading hours are currently under discussion).

Trading on the Eurex Repo market will be possible during regular trading hours.

Settlement:

Eurex Clearing AG (CCP)	regular business days with partially restricted clearing functions
CBF (CASCADE)	regular business days

Special Regulation for Whit Monday, May 28, 2007

Please be advised that the Management Boards of the Eurex Exchanges and of Frankfurt Stock Exchange decided on suspending trading one single time on May 28, 2007 (Whit Monday) as this date is also a U.S. holiday (Memorial Day) as well as a British holiday (Spring Bank Holiday). Thus, next year the same settlement procedures will be performed on May 28, 2007 as in the future are planned for December 24 and 31. Consequently, May 28, 2007 will be a settlement date for exchange transactions. Trading on the Eurex Repo market will not be affected by this one-time change of trading hours.
